Title: The Journal of Garret Moore

Author: Garret Moore

Day 1: I arrived upon
this forsaken isle.

Day 3: Found the ruins
of an edifice. A Tower?

Day 4: Need shelter.
Beginning to rebuild the
tower.

Day 7: Tower

Day 12: Tower

Day 21: Basic support
foundation almost
completed. Moving from
temporary shelter
tomorrow.

Day 29: Expanding
tower. Began research
and experiments to
produce livestock breeds
for food.

Day 45: Tower complete.
Near miss with
experiments. Life soon, I
am sure of it!

Day 73: I have done it!
A combination of cells
that reproduce without
my assistance!
Self-sustaining life not
far away.

Day 97: I am near the
answer, there is no
doubt. But there are
others who would see me
fail! They change the
sky to purple and hurl
bolts of lightning towards
me.

Day 111: The others still

seek to thwart me! I
hear their voices
commanding me to cease.
I will never rest until I
am done!

Day 121: Again they
come. They have sent a
succubus to tempt me.
"Kiss me, kiss me.", is all
she would say. "Nay,"
was my reply. I will be
strong!

Day 40232: Hah! The
voices now beg, but I will
not finish until he is
gone. The night is my
haven and the dogs will
bark!
